HERBACEOUS PERENNIALS

<i>Achillea ageratum</i> — <i>Sweet Maudlin</i>	\$15.00 per 100
One foot. Flowers yellow with long season of bloom. Foliage bright green, attractive both summer and winter. Good border plant. Perfectly hardy.	
<i>Agrostemma coronaria</i> —See <i>Lychnis</i> .	
<i>Alyssum argenteum</i> —Silver Alyssum	15.00 per 100
One foot. Flowers yellow, later than <i>A. saxatile</i> . Foliage, narrow, small, silvery.	
<i>Alyssum rostratum</i> —Yellowhead Alyssum	15.00 per 100
<i>Alyssum saxatile compactum</i> —Goldentuft	15.00 per 100
<i>Anchusa barrelieri</i> —Early Bugloss	15.00 per 100
About 2 ft., much lower than <i>A. italica</i> and more attractive in flower—a darker blue.	
<i>Aquilegia</i> —Columbine. Mrs. Scott Elliott's Strain	15.00 per 100
A selection of long spurred hybrids of fine colors.	
<i>Aquilegia</i> —Columbine. Farquhar's Pink	15.00 per 100
<i>Asclepias tuberosa</i> —Butterflyweed; 2-yr., strong ..	15.00 per 100
A beautiful orange-flowered, permanent perennial, about 18 in. high.	
<i>Centaurea montana</i> —Mountain-bluet	15.00 per 100
About one foot. Flowers large, blue, quite continuous during the growing season. Good for massing.	
<i>Chrysanthemum arcticum</i> —Arctic C	15.00 per 100
About 15 in. Flowers daisy like <i>in the autumn</i> . Foliage small, forming dark green attractive mats.	
<i>Chrysanthemum</i> —Hartje & Elder Daisy. Fine plants	10.00 per 100
An early large daisy of excellent garden habit. A neater plant and a better cut flower than the usual shasta daisy.	
<i>Chrysanthemum maximum</i> —Etoile de Anvers, Mrs. Tersteeg, and Triumph. 2-year seedlings	10.00 per 100
These are all fine daisies of the Shasta type.	
<i>Chrysanthemum coccineum</i> (<i>Pyrethrum</i>)—Painted Lady	15.00 per 100
Seedlings of James Kelway. Large flowered, bright vermillion.	
<i>Corydalis cheilanthis</i> —Chinese <i>Corydalis</i>	30.00 per 100
A half to one foot. A rare plant with fernlike foliage and numerous yellow flowers.	
<i>Delphinium belladonna</i> . Early sown, 1-year	6.00 per 100
These plants should bloom finely this year.	
<i>Delphinium hybridum</i> . 1-year transplants	15.00 per 100
From the finest strains of seed.	
<i>Dianthus barbatus</i> —Sweet William. Fine transplants	12.00 per 100
A strain with over fifty old-fashioned, calico colors. A fine mixture for bedding.	
<i>Dianthus cruentus</i> —Blood-pink. Strong plants ...	12.00 per 100
About 18 inches. Red flowers in clusters. Neat clumps of foliage, making a good border.	
<i>Dianthus deltoides</i> —Maiden Pink	15.00 per 100
Stock of best planting size from seed of named varieties. The plants will vary in foliage and	

flower color and be more interesting than plants from division of one variety. The foliage is evergreen and the plants form an even mat of foliage a few inches high.	
Dianthus latifolius—Double Cluster Pink	12.00 per 100
Good colors, mostly garnet. A fine border plant less than one foot high and quite continuously in flower. Intermediate between <i>D. chinensis</i> and <i>D. barbatus</i> in appearance and possibly a hybrid.	
Dianthus plumarius varieties—Garden or Grass Pinks	12.00 per 100
The plants offered are propagations from a number of very fine flowering plants.	
Digitalis gloxinaeflora "Shirley." Strong transplants	15.00 per 100
Produced by the originator of "Shirley" poppies. A very vigorous strain. A distinct improvement.	
Eryngium planum—Seaholly	15.00 per 100
All the seahollies have heads of flowers suitable for winter bouquets. The firm flower heads and the bracts and stem leaves are colored some shade of blue, giving the plants a very distinct appearance. Stems, bracts and flower heads in this species blue. Height about 3 ft.	
Eryngium coeruleum—Seaholly	15.00 per 100
About 3 ft. with smaller and more numerous flower heads than <i>E. planum</i> , and another shade of blue.	
Euphorbia myrsinites50 each
A plant of old gardens, very distinct, and suitable for rockeries.	
Gaillardia grandiflora—Gaillardia. "Huntington's Selected"	15.00 per 100
Seedlings from flowers not the usual red and yellow. Some almost white, others straw yellow with deep rose zone.	
Gaillardia grandiflora	12.00 per 100
A large red and yellow flowered type.	
Linaria dalmatica—Dalmatian Toadflax	15.00 per 100
About 3 ft., forming large clumps. Foliage glaucous, very attractive and distinct. Flowers lemon yellow on long graceful spikes. Best as specimen plants.	
Lychnis coronaria (Agrostemma)—Rose Champion	12.00 per 100
The bright rose flowers and the whitish foliage make this a conspicuous plant. About 2 ft.	
Lychnis haageana—Haage Champion	15.00 per 100
About 15 inches. Flowers large, nearly 2 in. across, in shades of red, quite continuously all summer. A shadowy plant for massing.	
Oenothera fruticosa youngii—Young's Sundrops	15.00 per 100
Salvia argentea—Silver Sage	25.00 per 100
Large, white, very silky, leaves lying rather close to the ground. Very distinct. Flowers not showy and flower stems had best be removed to preserve strength of plant.	

Salvia turkestanica rubra	15.00 per 100
A sage with rather large, irregular, Gloxinia-like leaves lying flat on the ground and branched flower stems about two feet high. The flowers proper are quite small but are subtended by large colored bracts which are showy and remain brightly colored for a long period during mid-summer. The bracts in this variety are white with markings of purplish-red.	
Salvia turkestanica variety from Vatican Garden ...	25.00 per 100
Has not yet flowered here. Strong one-year plants.	
Stachys lanata—Woolly Betony	12.00 per 100
Less than 6 inches, spreading. Foliage silvery white like Dusty Miller, but with the soft texture of the Mullen. Flowers inconspicuous. A valuable, perfectly hardy, plant for low masses in sun or half shade.	
Statice armeria (Armeria)—Thrift	15.00 per 100
Tunica saxifraga—Saxifrage Tunicflower	15.00 per 100
Veronica longiflora—Beach Speedwell	15.00 per 100
Veronica spicata—Spike Speedwell	15.00 per 100
Viola cornuta—Tufted Pansy	12.00 per 100
Admiration—Dark Blue.	
Kelway's Show—Mixed colors.	
Scotch Border—Mixed colors.	

WOODY PLANTS

*Berberis sargentiana—Sargent Barberry. 12-15 in. Bushy	1.00 each
Plants balled and burlapped. A <i>hardy evergreen</i> Barberry reaching 4 ft. in height. A compact grower.	
*Juniperus communis montana (depressa)—Mountain Juniper. This low growing, rather prostrate Juniper varies much in habit of growth, making each individual plant the more interesting. <i>Plants selected for their beautiful styles of growth.</i> Prices balled and burlapped from clay soil, insuring a good ball.	
18-24 in. spread	3.00 each
15-18 in. spread	2.25 "
12 in. spread	1.50 "
Ligustrum ovalifolium—Californian Privet	12.00 per 100
Ten branches and up. Over 3 ft. Finer plants could hardly be grown. Fine for training as specimens.	
Ligustrum regelianum—Regel's Privet75 each
Specimens 2 ft. high and 3 ft. across.	
Syringa persica rubra—Red Persian Lilac	1.00 each
Specimen bushy plants, 4 ft.	
(Note: Single plants not less than 25¢, or as quoted. Ten at the 100 rate.)	
Plants marked * cannot be shipped with soil outside Japanese Beetle Zone.
